Homecoming

Making their way down the field...

Senior Homecoming court members Sarah Carter and Carl Bahner embrace for a photo.

Court members were announced at half-time.

A few extra faces were seen on campus as family members and alumni visited for **Oktoberfest**, a Homecoming and Family Weekend. A variety of activities and events were planned to keep visitors and students entertained. On Friday, alumni and parents were invited to observe and eavesdrop on classes. A **walking ghost tour** was held on Friday evening, with assistant professor of English Dr. Kevin Pry '76 sharing the lore and legends of the campus. At 7:30 p.m. on Arnold Field there was a **pep rally**, followed by **fireworks** that officially kicked off Homecoming festivities. Featured in the Friday night comedian slot was Wayne Hoffman, a **mentalist and illusionist**. Before the football game on Saturday, Oktoberfest participants found a smorgasbord of **authentic German food**. Perhaps the highlight of the weekend was the football game against Delaware Valley. **Student spirit was boosted** all around campus in preparation for festivities. Students sported hats on Monday and dressed down on Tuesday. Wednesday brought Mismatch Day, and on Thursday, students went galactic with Alien Green Day. Finally, the week finished off with students displaying their spirit by wearing LVC colors.

Study Abroad

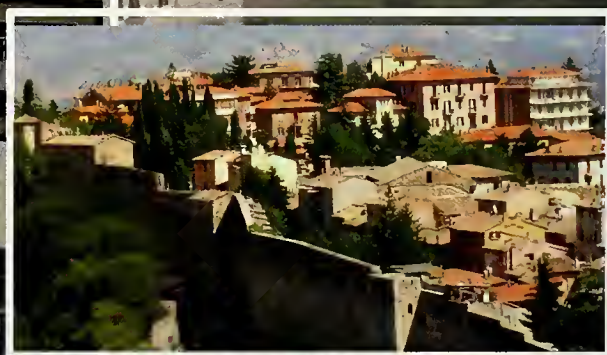

Living the city life...

Junior Kristin Nawoczinski (*right*) enjoys a drink with her roommate at a bar in Philadelphia. Kristin interned at an advertising agency spring semester.

We love telling our LVC friends about the many crazy adventures we had while we were away last semester. The one common response we get: people's one regret about college is not going abroad. Don't let this be your mistake!! Where is the most interesting place you have lived? Why not spend four months in France, Germany, Spain, the Netherlands, Italy, Greece, London, Cambridge, Argentina, Australia, New Zealand, Philadelphia, or Washington, D.C.? My name is Holly Andrews, and I am a junior accounting major with a Spanish minor. I studied abroad last semester in Salamanca, Spain. I came to college with the impression that I did not want to study abroad. Fortunately, I changed my mind, and it was the best decision I ever made.

The most exciting part for me was all of the traveling. I spent the first week in Spain touring Madrid, Toledo, and other little cities near Madrid. Then we took three day trips to Segovia, Alberca, and León with our school. Also, we spent five days in the south of Spain and visited Granada, Sevilla and Cordoba. All of this traveling was included in our tuition.

Check out the view...

Women's Rugby

When teammates turn into family...

Junior Melissa Carvajal, Sophomore Kelly Brower, Senior Bettylou Mihal and Junior Jill Brader take a moment for a pre-match photo.

The team competed at an Eastern Pennsylvania Rugby Union tournament in March when the women played two games, securing second place and brought home the **first trophy in the history of the club**.

The team faces the challenges that come with being a club sport. Because rugby is not officially recognized as a Division III sport by the NCAA, the women are not considered an athletic team. Because it is considered a **club sport**, expenses incurred must be paid for by team members. These expenses include EPRU dues, ambulance fees and most recently, the cost of new uniforms.

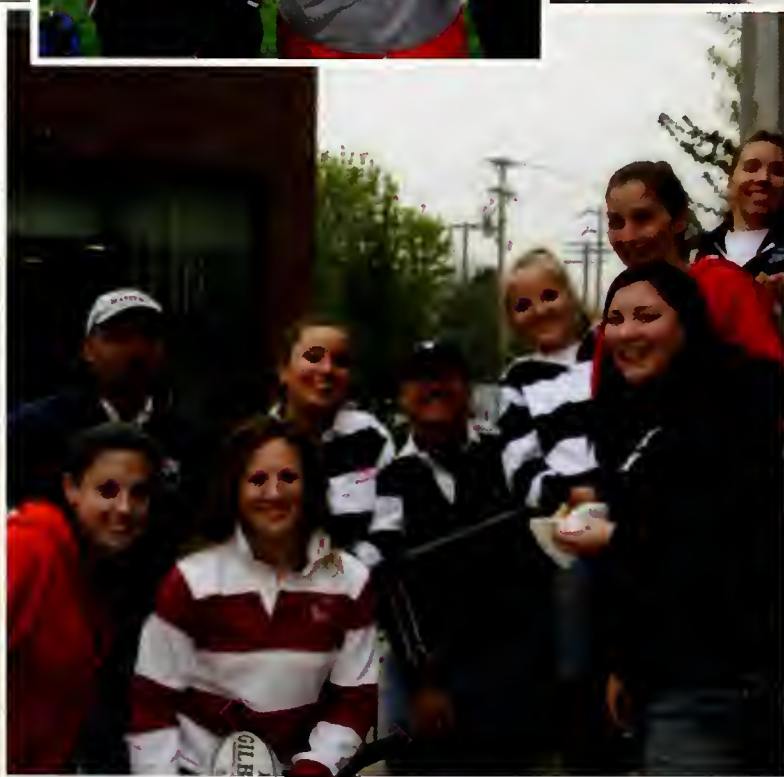

The team has been **actively fundraising** for a couple of semesters. They have sold candy, worked at Hersheypark, helped with car washes and sold raffle tickets.

The club has been successful because of the volunteer work of all members. Bob Rhubright and John Wilhelm, coaches for the past five years, have been **volunteering their time and coaching for free**.

When the team was practicing at 6 a.m., Wilhelm was actually **taking vacation time from his job** so that he could be present.

Club advisor, Priscilla Johnston, is another who devotes much of her time to the team at practices.

Story by Sharon Johnston from LaVie Collegience with permission

Hanging Out with the Team...

The team enjoys going to their BBQ fundraisers and taking hot dogs to give to the Lebanon County Humane Society.

"Fifteen as One Coming at Ya like a Nightmare"....

The team proudly holds up their second place trophy after competing in the F&M tournament this spring. The women beat out Susquehanna and F&M to take home second.

Freshman Jen Reilly and Junior Melissa Carvajal are lifted into the air for a line-out. A line-out is used to restart play when the ball goes out of play.

Equestrian Club

Back in the saddle...

An Equestrian Club member prepares for competition.

...the riding high as the club was revived after five years of inactivity. With much success in the show ring, the club was able to be reckoned with while still providing experiences for beginner equestrian riders. The club, which is sponsored by student government, was revived by former student Nikki Kempf in the fall of 2003. She received a great deal of interest from the student body, and she wrote the club constitution and was approved by the student government to reopen the club. Kempf has since transferred out and sophomore, Elise Pitman has taken over her roll as club president.

The Equestrian club, is now a member of the **Intercollegiate Horse Show Association**. The IHSA allows for a unique type of horse showing in which riders of any level do not have to own their own horse or equipment to compete at regional, zone, and national levels. LVC is a member of Zone 3, Region 1, and competes against other Zone 3 schools including Franklin & Marshall, Wilson College, and Penn State University.

The members prepare for shows by taking weekly lessons with their coaches, Richard McGrath and Jennifer Fralick. During the hour-long lessons, the students work on everything from balance and control, to jumping and gymnastics.

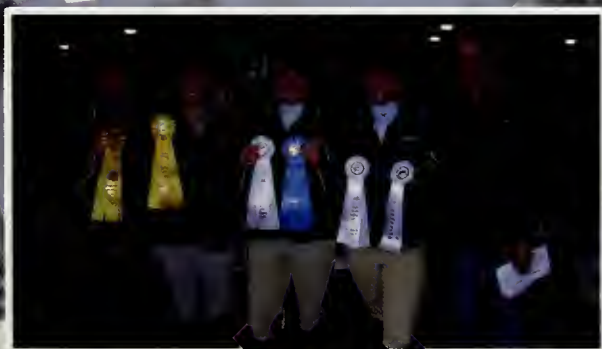

"With a beginning rider we will work more on building up confidence, control and balance, and with some of the more advanced riders we will work on exercises over fences and some more detailed work," explained Fralick.

The LVC Equestrian Team fields an all-female team, though other teams have both male and female competitors. The club encourages all students to join.

"No experience is needed," Pitman says, "and it's a lot of fun!"

Dutchmen Day

A not so tasty surprise...

Junior Laura Stauffer discovers a pair of underwear at the bottom of her pie, after completing the pie eating contest.

The College's Dutchmen Day tradition continued on a beautiful spring day as students were treated to a variety of carnival-like amusements. The day featured a Taekwondo demonstration, a giant game of Twister, and an inflatable rock wall, obstacle course, boxing ring and bungee race.

Seniors Katie Markey, Nikki Wynn, and Stacey Geisler enjoy the beautiful weather on their day off from classes.

Freshman Lauren Du Bois smiles at the camera after knocking out her opponent in the inflatable boxing ring.

Freshman Beth Turri has fun on one of the inflatables. Participants were attached to a bungee cord and raced their opponent down the tunnel, diving to place their Velcro marker the farthest, while being pulled back by the cord.

Dangerous stunts...

Junior Amy Ginger attempts the wall climb challenge.

Breaking a sweat...

The inflatable obstacle course is popular among students. They raced their roommates and friends through the course, hurdling walls and diving through tunnels!

ValleyFest

Oldie but Goodie...

Everclear performs "Father of Mine."

Arnold Sports Center underwent its annual makeover to become a certified concert hall for Valleyfest. Friday night the gym played host to Emerson Drive. The band brought us such tunes as "Sweet Little Rock" and "Father of Mine." Saturday saw another major performance when the mood changed from old fashioned rock to country. Emerson Drive headlined Saturday's show in front of a slightly smaller, but in no way less energetic crowd. The crowd matched Emerson Drive's energy and passion, singing along with their singles and more well known tunes. Halfway through the set, the band slowed it down with their current single, "Moments." During the performance of the thoughtful tune, Mates' vocal prowess showed through as the strength of his pipes became apparent.

Whether you liked rock or country, each headlining band had fun onstage and was good at what they do. And that is something anyone can respect.

Virginia Tech Reflections

The following are reflections of the April 16, 2007 shooting at Virginia Tech Community College, Blacksburg, Virginia. LVC is proud to be a part of the community and we are grateful for the support and love that has been shown to our students and staff.

LVC has become a closer community since April 16

Upon receiving an e-mail from Dean Yuhas and President MacDonald, a sense of safety pervaded the campus atmosphere. It was comforting to know the administration had been working on a plan to up campus safety, even before the tragic events occurred. I feel that LVC has become a closer community since April 16. With an eye toward the safer aspects of campus life, we have pulled together and showed our support for the students at Virginia Tech. The most moving thing I have witnessed in my four years here happened on April 20, as students and staff showed their support by wearing orange and maroon, the colors of Virginia Tech. I have never been prouder to be an LVC student than I was on that day.

- Kayle Richardson, 21
Senior, Mahanoy City

I remember vividly, and I wish I didn't

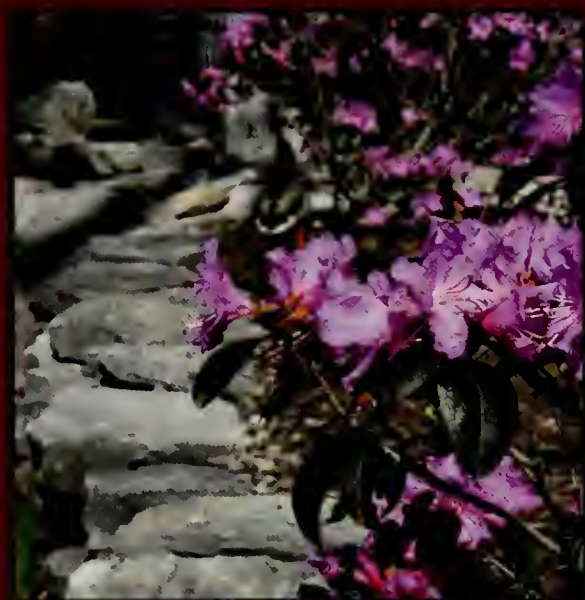

I do remember. I remember vividly, and I wish I didn't. I first heard about the Virginia Tech shootings at around 5:30 p.m. the day they occurred. As anyone on the campus e-mail list knows, our inboxes tend to be flooded with tedious information that often goes unopened; I wish more than anything that this could have been one of those e-mails. I recall speaking with my father and explaining to him how unable I was to snap myself out of this despair. He echoed my feelings by telling me that after finding out about the incident, he could not even eat dinner. He was that sickened.

- Erin McManus, 22
Senior, Eldersburg, MD

I became more detached from the world around me

My stomach dropped as [my friend] went on to describe the large numbers of people dead and wounded. As the details began to unfold and the death count climbed one by one, I became more detached from the world around me, focusing on the devastation occurring at Virginia Tech. Although I knew no one at Virginia Tech, I felt a terrible combination of loss and sickness. Seeing the videos and pictures pouring in from the school shocked my senses and left me reeling from the violence.

- Heather Vasas, 21
Senior, Collegeville

My life has been consumed with "What if"

For the past two weeks, I have felt as though my life has been consumed with "What if?". What if this would have happened on the LVC campus? What if the victims were my friends? What if there is an outbreak of shootings? What if someone like him lives here? I was afraid. I was upset. I was nervous. But more than anything, I was captivated by the stories and spent much of April 16 on CNN.com watching the tragedy unfold ... We banded together and we recognized that our reality was invaded. Facebook groups formed and students from every college in every town changed their profile picture to the black ribbon with the VT logo. We could not understand why it happened, but we knew it affected us all.

What was your most memorable LVC moment?

Traveling to Paris for a class on the history and culture of Paris. There were about 15 of us, and we all dined out together for Thanksgiving.

Where do you see yourself in 5/10 years?

I could be anywhere -- grad school, a museum or a small gallery.

What will you miss most about LVC?

The professors -- they were always very kind and easy to talk to. They usually gave great advice.

Where was your favorite hangout?

Lynch Atrium/MJ's

Who was your favorite professor and why?

Dr. Anderman. Her classes were always fun and interesting, even long night classes. I felt like I learned so much from her in every class.

What is your favorite part of campus?

The Peace Garden

Any advice to future seniors?

Relax, do your best, enjoy your last year, but also search for jobs on the side.

Erik Vargo

What was your most memorable LVC moment?

The tennis team's Spring Break trips to Hilton Head, South Carolina.

Where do you see yourself in 5/10 years?

Either teaching mathematics or working in finance.

What will you miss most about LVC?

I'll miss the camaraderie of the tennis team and spending quality time with friends.

Where was your favorite hangout?

Anyone's apartment, since there is not too much to do in Annville.

Who was your favorite professor and why?

Since I'm a math major, the math professors are my collective favorite. Outside of the Math Department, I would say Dr. Hathaway, since his Politics of Russia class was the most interesting history class I have ever taken.

What is your favorite part of campus?

Arnold Sports Center, since it gives me the chance to exercise and get away from the stress of schoolwork.

Any advice to future seniors?

Future seniors planning on attending graduate school should start their college search early. I think it's important to give yourself plenty of time to prepare your applications and get your recommendations together. Also, it's never too early to start prepping for the GRE.

What was your most memorable LVC moment?

I will always remember the first meeting of the club I co-founded. Almost 50 people came and expressed interest in the club's initiatives.

What was your most embarrassing LVC moment?

At one of the performances of *Much Ado About Nothing*, in which I was playing Beatrice, I tripped and went sliding across the stage!

Where do you see yourself in 5/10 years?

In 5 years, I hope to be working on my dissertation to earn my PhD in literature. In 10 years, I hope to be an assistant English professor at a small college like LVC.

Where was your favorite hangout?

My friends and I loved to play card games at MJ's!

Who was your favorite professor and why?

My favorite professor was Dr. Cathy Romagnolo because she encouraged me to step out of my comfort zone and to think critically about everything.

What is your favorite part of campus?

I love the piazza outside of the New Student Center. It's the perfect place to read a book on a sunny day.

Any advice to future seniors?

Remember to take time for yourself and be grateful for your last year at the Valley.

Photo by Ed Strenl

Jonathan Lintz

What was your most embarrassing LVC moment?

When someone waves at me, and I wave back. However, the other person is really waving at the person behind me. This situation has happened quite often during my four years and I still get embarrassed every time it happens.

Where do you see yourself in 5/10 years?

Some type of corporate executive.

What will you miss most at LVC?

I will miss all my friends who have made LVC feel like home.

Where was your favorite hangout?

I did not have any particular spot, but I guess the New Student Center was one of my favorites.

Who was your favorite professor and why?

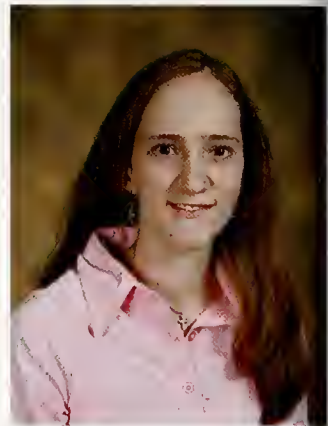

Dr. Raffield was one of my favorite professors. I would never know what to expect each class, and I would always come away with some new, interesting fact that I did not know before.

What is your favorite part of campus?

I like how the campus is small and you are able to know almost everyone.

Any advice to future seniors?

Your senior year goes a lot faster than one thinks. So, make sure you plan ahead and, most of all, have as much fun as possible with your friends.

What was your most embarrassing LVC moment?

Probably dropping my tray at lunch on "spaghetti day" a year or so ago. And yes, I was wearing white.

Where do you see yourself in 5/10 years?

In 5-10 years I hope to be either teaching psychology at a university or doing research for a governmental or nongovernmental organization. With any luck, some time abroad is in the cards, too.

Where was your favorite hangout?

Late night coffee at MJ's on "Jazz Night."

Who was your favorite professor and why?

The entire psych department. They have been supportive, friendly and encouraging from Day 1! I owe so much of my success, academic and otherwise, to their unwavering guidance and support. Also, a big thank you to Drs. Johnson, Braem and Chamberlin for challenging and inspiring me.

What is your favorite part of campus?

The practice soccer fields. Sledding down that hill with my roommates is one of my fondest memories of my time at LVC. Plus, nothing beats stargazing out there on a clear night.

Any advice to future seniors?

It's gonna fly, so make the most of every moment. Work hard, play hard, spend time with those you care about, and let them know what they mean to you. Keep your goals in mind, but realize that only so much is up to you. Treasure the experiences you've had and those who have been there with you along the way, and realize that, even at its toughest, life is a beautiful journey.

What was your most memorable LVC moment?

Although it was not actually a single moment, the completion of the Chapel Mural is something that I will always remember. I was lucky to get the chance to design and paint a mural on such a large scale. I hope that the mural remains intact for a long time.

Where do you see yourself in 5/10 years?

In five years I hope to have completed my Masters in Fine Arts. It is my dream to continue within the field of studio arts, and at some point find a teaching position at the college level. I definitely see myself staying in Pennsylvania, most likely somewhere close to Philadelphia.

What will you miss most at LVC?

I will mostly miss my four roommates, of whom I have lived with since my sophomore year here at LVC. I was very lucky to find four amazing friends and to keep them for three full years. I will also miss the infamous sleep walking accidents, and the late night phone calls to Greg Daily. Shabam.

Who was your favorite professor and why?

Michael Pitarri was my favorite professor. He is very passionate about his field of study, and is one of the main reasons why I wish to continue within the field of studio arts. He always did his best to stir up interesting, and sometimes controversial discussions. He truly believes what he teaches, and expects the best out of all his students.

What is your favorite part of campus?

I spent most of my time in the art studio. It's probably the most overlooked building on this campus, and hopefully at some point the college will put some money into fixing it up. Maybe then more people will take advantage of the art program here at LVC.

Any advice to future seniors?

Enjoy every minute of college, don't skip class, and don't nap like Ed Myers.

What was your most memorable LVC moment?

I'd have to say the Race Rally, the shining moment of activism that I've seen on campus. I hope that the LVC student body will continue to have opinions, take action and demand attention. Also, I will always have the memory of the time I first saw LVC's own Squirrelman.

Where do you see yourself in 5/10 years?

I will be highly dissatisfied in myself if I am satisfied with life in 5 to 10 years. Success will be seeing my life continually unfold, taking unexpected turns, meeting new people and never stopping or getting stuck in one spot...so I'd hate to make too many expectations for the future. I've always been a dreamer -- I'm not too worried.

Where was your favorite hangout?

During the day, MJ's Coffeehouse. At night, The Batdorf.

Who was your favorite professor and why?

Professor Michael Pittari has been my stronghold for the past four years. He has given me an unconditional amount of support, encouragement, help and knowledge. He has answered so many important questions for me, and I have learned so much. I feel incredibly lucky to have had such a mentor and friend.

What is your favorite part of campus?

The Library. (Is that the nerdiest possible thing to say?) Just to see the sheer number of books in the library, lined up in different colors and sizes, each one as a record of a person's mind. If we put all of that knowledge together, God knows what would happen. It's powerful.

Any advice to future seniors?

Be PASSIONATE about your interests, and use your knowledge to help others.

Zachary Kaufman

What was your most memorable LVC moment?

I don't think I can pin down one most memorable moment here. My experience here is defined by many memorable moments from studying abroad in Australia to classes, time on the tennis courts and time with friends.

Where do you see yourself in 5/10 years?

Scary as it seems, I may still be in school in 5 years finishing up my degree in economics. In 10 years, hopefully I'll be working in Washington, D.C. or abroad on issues of development and sustainability in the developing world.

What will you miss most about LVC?

I'll definitely most miss the time spent with friends here. I'll also miss the close knit community that LVC has. That isn't present at a lot of schools.

Where was your favorite hangout?

My favorite hangout was always where my friends were, usually in one of our rooms.

Who was your favorite professor and why?

My favorite professors were Dr. Perry and Dr. Maynard in the economics department. They were always available for advice or just to talk. They kept class interesting most of the time too.

Any advice to future seniors?

It sounds cliché, but live it up at LVC while you can. I was only here for three years, but it raced by in what felt like one. Also, I would encourage all students to study abroad if you have the chance. It's an opportunity you may never have again.

Deborah Tookes

What was your most memorable LVC moment?

My most memorable LVC moment was when I was walking through the Humanities Building and I happened to look up on the wall and I saw a sign that said "Vice -President and Controller". At that time, I had a strong desire to meet the Controller of the school. I did not know whether it was a male or female, though. When the Controller came out of her office to meet me, I saw that she was a woman and that her name was also Deborah. I was excited to meet and hold a brief but meaningful conversation with her. Following our introduction, I asked her to be my mentor. She agreed. Neither of us knew where this new-found relationship was going to take us, but we were both willing to explore the possibilities. Getting to know Deb Fullam is one of the best things I have done at LVC. She has been a wonderful role model for me.. She is very supoprtive and she has led by example.

Where do you see yourself in 5/10 years?

In 5/10 years, I see myself with the following three titles behind my name: Certified Public Accountant (CPA), Certified Fraud Examiner (CFE) and Certified Value Analyst (CVA). I also see myself carrying a MS in risk management. With these tools, I plan to practice forensic accounting.

Who was your favorite professor and why?

All of my professors were my favorite because they all taught me something different. However, if I have to choose, I would have to say Dr. Markowicz in the Business and Economics Department. Why? Well because he produced results. He helped me to get over bad habits that I thought would forever be part of me. He helped me develop professionally.

Any advice to future seniors?

Stay focused on your goals. Sometimes the world around you may be falling apart but if you work hard, you will slowly be able to put the pieces back together. Do not be afraid to reach out for help...if one person doesn't help you then someone else will. Always try to help others...we all need a helping hand sometimes. Do not give up on what is most important to you. Work hard but have fun...it is ok to take a break sometimes. Do your best because anything else is unacceptable. Learn from every experience.

Pride of the Valley

The LVC Marching Band program represents a long tradition of student involvement on the campus. This year's band of 150 students includes 60 percent who are majoring in music, with the remaining 40 percent representing a broad cross-section of many other academic disciplines. It is the largest student organization, representing approximately 10 percent of the resident student body population. The band includes 133 playing members, 11 guards, two twirlers, two drum-majors, and two non-marching staff.

The shows are designed, arranged and written entirely by a student band staff personnel. The 2006 show was designed as a salute to heroic figures, both mythical and real-life, who provide us with larger-than-life images which lift our spirits, inspire our dreams, and tug at our hearts. Some of the musical numbers included the super-hero theme from "The Incredibles," the poignant and moving military hero tribute, "Hymn to the Fallen," and the pulse-quickening John Williams Olympic opening theme, "Summon the Heroes."

Musical arrangers are Greg Strohman and Robbie Kerchner. Percussion scoring is by Mike Feher and Jeremy Bleistine. Trumpet soloist is Bob Stasiunas. Visual coordinator and Head of Staff is Tom Davidson. Drill design is by Kateri Swavely, with choreography by Rachel Marion. The featured twirler is Jenna Moser, two-time Twirling Unlimited World Majorette Champion. The band is led on the field by field conductor Jay Althouse and drum-majors Mark Rizzo and Chelsie Miller.

Alpha Sigma Tau

This sorority has been very busy this year with many events. They organized trips to the skating rink, current plays and musicals, Halloween and Christmas parties, and much more. This past fall, they collected canned goods by trick-or-treating on Halloween for the Ronald McDonald House, and collected over 350 canned goods!

Members participated in Making Strides Against Breast Cancer by raising money and awareness for Breast Cancer. The chapter participated with other Greek organizations in a visit to Country Meadows Nursing Home and collected goods around campus for the Annual Turkey Bowl Flag Football Game.

In the spring, the chapter walked in the Relay for Life to help raise cancer awareness. They also sewed dolls to give to children in need. They have fun together while they help and interact with others on campus and in the community.

Alpha Sigma Tau is an Active, Self-Reliant and Trustworthy group of women!

ALMA MATER

(Verse 1)

To Thee, dear Alma Mater
This ringing song we raise;
A song that's fraught with gladness,
A song that's filled with praise.
We cannot help but love Thee,
Our hearts are full and free;
Full well we know the debt we owe,
To dear old LVC.

The newest LVC graduates take a few moments to proudly display their diplomas.

It's amazing how life sometimes turns around. Several years ago, you thought this would never be a possibility. One never knows until they try. You have accomplished much, and have stayed the course. From that little baby girl of mine, you have turned into a beautiful and character-filled woman that I am so very proud of. May the rest of your life and all that you do be filled with happiness, blessings and success.
